DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

2. The drawings are objected to because Figure s 1a-1d should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Specification

3. The disclosure is objected to because of the following informalities: for example, on page 3, line 14, "than" should be "then". On page 5, line 6, "mush" is not understood. On page 7, lines 10-11, "by maximum" is informal. On page 7, line 13, "may be experienced by etch damage" is informal. On page 7, line 19, "Turing" should be "Turning". In general, the specification seems to be a result of direct translation.

Appropriate correction is required.

4. The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 16, the phrase “relatively as mush” is not understood and is indefinite.

Clarification is requested.

Allowable Subject Matter

7. Claims 1-7 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

8. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record fails to teach or to suggest, either alone or in combination, the step of “forming a high polymer solution coating film...” and the step of “reacting to the crosslinkable agent...”.

Art Unit: 2812

Prior art of Record

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See the PTO Form 892.
